"Can't Afford to Be Without It"

Many a large business house today owes its success in a large

measure to building power of publicity. They have had great men

at their head, men who have manifested their cleverness in many

ways but it is an insurmountable fact that those very men saw and

employed the advantage which is to be gained through steady advertising. The head of a large tire concern is only one of many who

is firmly convinced of its necessity and he says, "We have found adver-

tising one of the greatest factors in our success. I believe it is one of

the greatest known agencies for boosting local business. It is the

natural outgrowth of economical conditions. Many large manufactur-

ers today owe their prestige to their aggressiveness in pushing their

depend for the news and secondly because it is a newspaper with the

news; it has a widespread and thorough circulation and its value as an

advertising medium is thereby placed at the topnotch. One sub-

scriber voices the expression of the many in declaring, "I cannot af-

ford to be without it a day." That is the one only logical attitude

Friendly Relations Strained.

Coupled with Germany's disappointing and unsatisfactory explanation of the sinking of the White Star liner Arabic, after Count Von Bernstorff had given assurances that full satisfaction would be given if it was established that a German submarine sunk chip, official Washington views the friendly relations with the Germanic powers as strained more toward the breaking point than ever before. Talk of Break of Diplomatic Relations

Hopes that the submarine crisis had been safely passed and that a break between Germany and the United States had been avoided were displaced today by misgivings. Talk of the pos-sibility of breaking diplomatic relaions was heard again, although this time it involved both the central pow-ers, on the theory that Austria, after

having her ambassador virtually dis-missed from the country, might stand with her ally in relations with the United States. A Second Note Spoken Of.

Unofficial reports that a second note had been started from the Berlin for-eign office for Washington furnished about the only basis of optimism in official quarters, so far as the sub-marine controversy was concerned. There was no official intimation that A Memphis, Tenn., firm received an order for 25,000,000 feet of wainut for gun stocks from arms manufacturers and a firm of New York benkers. note on the Arabic probably will be delayed until officials can learn whether to expect anything additional

American note will reach Berlin probably early next week which will set forth the views of the United States in a brief and unmistakable manner. Leaves Whole Question Unsettled. Germany's declaration that, while

she regrets the loss of Americans, she recognizes no liability for indemnity even if the submarine commander was mistaken in believing the Arabic was about to attack him, is regarded in of-ficial circles as leaving the whole submarine question practically where it was left by the Berlin government's presponsive attitude toward the Lusienia negotiations and in remarkable ontravention of the favorable view which state department officials had en led to take by the statements of the German ambassador.

Church Janitor Hanged for Murder Sacramento, Calif. Sept. 10 .- David Fountain, a church janitor, was hanged at Folsom prison today for the murder of ten-year-old Margaret Milling in the basement of the German Luptheran church here on December 5, 1914.

Captain Von Papen Involved, Captain Von Papen is involved in the Dumba case because he forwarded by James F. J. Archibald, the Ameri-can correspondent traveling under an American passport, a personal letter in which he made offensive statements about American officials. Moreover, Ambassador Dumba's letter to the Vienna foreign office found on Archi-bald mentioned Von Papen as having approved what the state department in its note to the Austro-Hungarian government characterized as a con to cripple legitimate industries in the United States. Consul-General Nuber Is drawn into the case because the Dumba letter disclosed that he was connected with this strike plan.

High officials indicated today that the government would take steps of some kind against the editor of a Hungarian newspaper in this country.

Hungarian newspaper in this country from whom a memorandum was en-closed in the Dumba letter outlining carefully prepared plans for putting ping munitions plants.

How Bernstorff is Implicated. Count Von Bernstorff is involved technically because Archibald carried a letter for him, but as it was a copy of a statement previously made to the ambassador by Secretary Landor, wholly of an innocuous character, officials do not regard the German ambassador's status in the affair as approaching that of his military attache or the Austran consultances.

or the Austrian consul-general Awaiting Austria's Reply. It is quite probable that until the Vienna foreign office replies to the quest for the withdrawal of Dr. Dut nothing further will be done in his case, nor in the cases of Von Papen or Nuber. If the receipt of documention now in the hands of the state de-partment, officials would not be sur-grised to see both men withdrawn by their home government or, as a final resort, dismissed from the country.

Abuse of Passport. The fact that Von Papen's letter was a personal one would not after the sit-uation. It was pointed out today that Lord Sackville West's personal letter on the political situation resulted in his recall from the British embassy here. Secretary Lansing said that while the department had no official information on Von Papen's case, it regarded the use of an American passent for carrying any nort of communigarded the use of an American pass-port for carrying any sort of communi-cation through the lines of the beilig-erents as an abuse of that document. The administration has reports in ating that General Villa is losing control of some of his forces in north rn Mexico and that many of the solliers have broken away from their commands and organized into belligrent bands, adding to menacing conlitions along the border. Soldiers May Be Sent to Rescue. Assistant Secretary of War Breck-inridge conferred with Secretary Lan-sing about the situation. It was stated that no orders had been sent to Amer-

under date of Aug. 15 last inviting him to a conference with the chiefs of the rebel party to consider the Mexican situation and re-establish peace, I have seen fit to address your excel-lencies, as in fact I have the honor to do, to inform you in the name of the first chief of the constitutionalist army in charge of the executive power of the republic, that he cannot consent that the interior affairs of the republic be handled by mediation or by any initiative of any foreign government, inasmuch as all have the right to re-spect the inalienable right of the sove-reignty of nations, and since, upon the accentance of the invitation of your acceptance of the invitation of your excellences, addressed to him, to attend a conference with the chiefs of the rebel factions with a view of re-turning peace to Mexico, he would impair profoundly the independence of the republic and would establish a precedent of foreign interference in the determination of its interior af-fairs, this consideration alone suf-ficing in prohibiting our government

from participating in the legitimate de-fense of the sovereignty of the Mexican people and of the other American na-

her life for an hour and a half today in a high surf and heavy fog until rescued by motor boats, while bath-ing in a pool among the rocks. She was severely injured by being dashed against the rocks a number of times, and was about to become ex-hausted when Ray and Roscoe Crock-er, lobster fishermen, pulled her from the water Inspired by Highest Duties. "Apart from this fundamental reason, there are other reasons which I do not wish to pass without mention, in order to produce in your min dthe intimate conviction that the conduct of the first chief of the constitutionalist Miss Margaret Gates of Newark, N. army in charge of the executive power of the nation in this attitude is in-spired solely by the highest duties imcaught with her, but managed to reach shore and give the alarm which posed upon him by his elevated trust.
"I am sure that your excellencies do
not doubt that Mexico is at present in the throes of a revolution in which it is proposed to wipe out the last vestigo of the colonial epoch, as well as all the

errors and abuses of past administra-tions and realize the noble aspirations for the welfare and the betterment of the Mexican people.

First Chief Only Authority. "On the other hand, your excellencies will have been able to observe from the answered received to your note from the military chiefs and civil subordinates of the first chieftaincy that the first chiew is the only authority that could decide, and who, in fact, does decide matters submitted to the consideration of the former, who, with their replies, have given an eloquent example of their discipline and soll-darity, at the same time giving evidence that the first chief has known how to preserve unity within the conlow to preserve unity within the con stitutional government, notwithstand-ing the prolongation of the strife, and in spite of the ignoble and repeated intrigues of our enemies for the relax-stion of discipline in the constitution-alist army and their attempts to cor-

rupt its principal chiefs. Bears Responsibility. "The first chief, in consequen
